MEMORANDUM FOR: [REDACTED]

VIA : Director of Economic Research
FROM : PB/NSC Coordinator
SUBJECT : Presidential Briefing Support (U)

1. On 23 July 1980 the Director briefed the President on Central America among other subjects. This briefing was very well received and its success was due in large part to your contribution. The Director felt this briefing made a significant contribution to the President's thinking with regard both to the region's political and to their domestic economic problems. (C/NF)

2. The Director has asked me to relay this thanks and appreciation for your efforts in support of this briefing. This was a very difficult and complex subject to deal with as the number of revisions will attest. Your responsiveness, patience, dedication and thoroughness were essential to making the briefing successful. He views these opportunities to brief the President as one of his most important responsibilities as Director of Central Intelligence. (C/NF)
